

FLOODGATE[®] FG-9200M

PRO:IDIOM ENCRYPTER FOR HOTEL HD FOR CABLE TV

Introducing a new generation of HDTV appliances at the lowest cost per stream in the industry.

8 OR 12 MPTS STREAMS

The VideoPropulsion[®] FloodGate[®] FG-9200M is our new generation head-end Pro:Idiom[®] encryption with two models for providing cable HDTV services. The models are capable of encrypting 8 or 12 MPTS respectively from an IP multicast source, with up to 42 programs streams in HD or SD within each MPTS. Output is over Gigabit Ethernet copper.

Pro:Idiom encryption technology is a Hollywood accepted standard for protecting content in commercial environments including hotels, motels, timeshares, hospitals, assisted living residences and other bulk commercial locations and is available on most leading commercial TVs.

EASY TO MANAGE

System installation is straightforward. The FloodGate Manager Web interface allows you to intuitively manage the IP multicast channel line-up, and start and stop service. Management tools are included to enable proactive remote service resolution.

- Provision 8 or 12 MPTS streams
- Encrypt HD or SD content with Pro:Idiom content protection in a head-end environment
- Output via IP
- Supports MPTS and SPTS input streams
- Automated configuration for fast and effective installation
